

"I used to **text** while I **drove**."

-a high school student that was educated by a
Safe Teens Program

His Story: "I want to **thank you** for coming to talk to our JAG class. You shared lots of information with us. I used to text while I drive and before when I first got my car I always buckled up and I never would text when I drove, but a while after that I quit buckling up. That day when you came to talk to our class, when I left school the first thing I did in my car was buckle up, put my phone down and didn't touch it until I was not driving.

Your speech **made me think** when I got behind the steering wheel that I need to buckle up and not text. Again, I thank you from the bottom of my heart because you could have very well of **saved my life**. Thank you."

Safe Teens

An initiative promoting teen safety and education.
